

ACR22 Global Rheumatology Summit

The Global Rheumatology Summit is a platform to highlight international rheumatology professionals and create a space to bring rheumatologists and health professionals together from different parts of the world to talk about topics that are of mutual relevance and concern. The 2022 summit will feature sessions on climate change and health, access to care and medications and advocacy. The program will showcase innovative mentorship and training models around the world, bidirectional global partnerships and address burden and harm of wasteful medical care in different healthcare settings.

Be part of the Global Rheumatology Summit! The summit will include two sessions built by learners' participation. Learners are invited to submit a case on Myositis and/or an example of Reciprocal Innovations to Address Global Challenges in Rheumatology.

Submission Guidelines

Global Meet the Experts:

Global Meet the Experts is a virtual educational series offered quarterly to a global audience of rheumatologists and rheumatology health professionals.

A Global Meet the Experts session will take place within the Global Rheumatology Summit and will focus on Myositis.

Cases will be submitted in advance from around the world, and leading rheumatology experts will discuss and debate key questions and learning points arising from these cases.

Case Submission: Submit your diagnostically challenging case of Myositis or Myositis case that has a difficult/refractory management course.

The review committee will select up to four cases based on teaching value for inclusion. If your case is accepted, you will be supported to pre-record a 5-minute presentation with the ACR team.

- You may submit up to two cases.
- Each case must be submitted in PowerPoint format.
- Cases must not be more than six slides and must follow this format:
 - Slide 1: Title slide – Please include the case title and your information. The case title should be intriguing and make the reader curious. The title should not disclose the diagnosis. Please include your name, title, company/institution, city, country
 - Slide 2: Introduction to the case
 - Slide 3-4: Provide a clinical overview of the case
 - Slide 5: State diagnostic or therapeutic dilemma
 - Slide 6: Include questions for the experts

Reciprocal Innovations to Address Global Challenges in Rheumatology:

Leveraging unique collaborations to create opportunities and break down barriers

Have you developed or implemented an innovative rheumatology program that is built on a bidirectional iterative partnership between institutions? Has this reciprocal innovation been used to improve patient care, education, or research in the field of rheumatology? If so, we invite you to the global stage to share your experience.

Reciprocal Innovations can include but are not limited to programs to increase access to diagnosis, clinical algorithms or protocols, research initiatives, education programs and/or platforms, and registries.

Share your innovation: In 500 words, describe the collaboration you have developed or implemented to solve a challenge in the field of rheumatology.

The review committee will select up to four innovations to showcase in the Global Rheumatology Summit. If your reciprocal innovation is accepted, you will be invited to pre-record a 10-minute presentation with the ACR's Production team between September 15 - 30, 2022, for inclusion in the Global Rheumatology Summit and be invited to participate in live Q&A on Thursday, November 10, 2022. You will also receive complimentary registration to ACR Convergence 2022.
