[Presentation Types & Categories:](#)

**Oral Presentations:** Abstracts submitted before February 3, 2025 may be considered as an oral presentation at the SSR Annual Conference. Oral presentations are 15-minutes (talk and Q&A) that will be scheduled within a relevant focus session. Few abstracts are selected for 30-minutes (talk and Q&A) presentations.

**Posters:** All posters will be presented at their scheduled times during poster sessions. Poster presenters are expected to attend their poster during the scheduled times.

**Education and Research Resources Posters:** The SSR Program Committee encourages presentations on teaching methodologies, databases, and resources of interest to the reproductive biology community. These abstracts will be considered for poster presentation only. Submissions in this topic area will not count against the abstract limit for research presentations (i.e., you may present [be the first author of] both a research and an education and research resources abstract).

**Submission Guidelines for Meeting Type:**

You may only submit an original abstract to one specific meeting, the SSR Annual Conference OR Pre-Conference Workshops, which you will identify during the submission process. Provided that the presenter register for the main SSR meeting, posters of abstracts submitted for any of the pre-conference meetings will be kept up for the entire meeting (through August 1st). Abstracts for the pre-conference meetings will also be considered for platform presentations, trainee travel grants and other considerations that an abstract submitted to the SSR meeting are considered for, PROVIDED that the submitter register for the SSR meeting as well as a preconference meeting.

Please contact the SSR Business Office ([meetings@ssr.org](mailto:meetings@ssr.org)) if you have questions.
