2027 FLC Awards

General Submission Requirements

1. Nominee(s) must be employee(s) of FLC member laboratories and may include non-laboratory staff members who were actively involved in the transfer process.

2. Nominee(s) must be employee(s) engaged in science and technology and/or technology transfer activities at FLC member laboratories (includes ORTAs).

3. Duplicate nominations of a technology transfer effort (individual or group) will not be accepted. For example, the same technology transfer effort cannot be submitted for both an Excellence in Technology Transfer Award and an Impact Award.

4. No resubmissions of a technology transfer effort that has won an award previously.

5. The nominated achievement must have taken place within the time period indicated for the category (Example: 10 years for Excellence in T2).

6. Each federal laboratory may submit a maximum of four nominations per category.

7. Joint interagency nominations are fine but should be submitted only once.

8. The technology must be formally transferred to qualify for the Excellence in Tech Transfer Award.

9. Award submissions must be approved by an FLC Laboratory Representative or FLC Agency Representative.
