

AMCP 2027 Call for Abstracts

AMCP invites abstract submissions for presentation at AMCP 2027, which will be held April 13–April 16, 2027, at the Moscone West Convention Center in San Francisco. Poster presentations provide a forum for managed care pharmacy researchers to share their research with AMCP 2027 attendees, who can interact with authors and discuss their findings.

IMPORTANT DATES

- Submission Portal Open: August 17, 2026
- Submission Deadline: November 2, 2026, 11:59 pm PT
 - Submission Deadline for student/fellow/resident only: January 4, 2027
- Notification of acceptance status: Mid-January 2027

HOW TO SUBMIT AN ABSTRACT

Please [CLICK HERE](#) to submit your abstract.

The submission site will guide the submitter through the process. Once started, work can be saved and completed in the future. Abstracts can be revised at any time before the submission deadline, even if they have already been submitted. No changes or corrections are permitted after the submission deadline.

Abstracts are acknowledged by email immediately after being submitted. If you do not receive an email acknowledgment, don't hesitate to get in touch with posterabstracts@amcp.org

SUBMISSION CATEGORIES

1. **Professional Reviewed:** The majority of abstracts will be submitted to this category. Only abstracts of research will be considered; non-research abstracts will be rejected. All abstracts must contain results; abstracts with “results in progress” will be rejected. Student pharmacists, residents, fellows, and graduate students are eligible for this category, but students who submit to this category will not be eligible for the AMCP Foundation Best Poster Award. Further, students whose abstracts are rejected from the reviewed category cannot be moved to the student category after rejection.
2. **Encore, Reviewed:** This category applies to abstracts that have been presented and published with another organization. Authors of these abstracts will display the poster at the AMCP meeting using the format required for the AMCP meeting. Encore abstracts are not eligible for the podium presentation and will not be published in the JMCP supplement because of the copyright ownership of the original presenting organization. The abstract title and author list will be included in the JMCP supplement.
3. **Student Pharmacist/Resident/Fellow/Graduate Student, Non-Reviewed:** This category is only available for submissions with first authors who are student pharmacists, residents, fellows, or graduate students. Abstracts are not required to have results at the time of submission; however, results are expected to be included in the poster presentation. Abstracts submitted to this category are not eligible for the podium session. These submissions are not peer-reviewed and are thus not included in the JMCP abstract supplement. The abstract title and author list will be included in the JMCP supplement.

Posters in this category are eligible for the AMCP Foundation Best Poster Award, but only if the presenter is a student pharmacist, resident, fellow, or graduate student.

REQUIRED INFORMATION FOR SUBMISSION

1. **Author information:** The following information is required for each author: First Name, Last Name, Main Phone Number, Address, City, State, Zip, Country, Position, Affiliation, Degree, Role. This information will be printed exactly as submitted. Please use the two-letter postal code for states (eg, NC for North Carolina.)

The submitter will select the author order. If the submitter is not the author, the submitter’s name can be removed from the author list.

By submitting an abstract, authors agree to the following requirements:

- All authors have met the [authorship criteria](#) defined by the International Committee for Medical Journal Editors.
- Abstracts must present content not previously published as an abstract or article

Questions? Contact: posterabstracts@amcp.org

(except for Encore abstracts).

- At least one author of each accepted abstract (preferably the primary author) must register for and attend the meeting. A single author can only represent one poster.
2. Title: Only capitalize the first word of the title and proper nouns. Eg, Costs of Medicare prescriptions
 3. 3. Please choose the category that best fits your abstract. If accepted, this category will determine how your abstract is grouped in the published JMCP supplement and organized in the on-site poster hall. Abstract: The abstract headings are Background, Objective, Methods, Results, Conclusions, and Sponsorship. The maximum number of characters is 2,600, including spaces and sponsorship. Title, authors, and disclosure statements are not included in the word count.
 4. Sponsorship: List all sponsors. Only list the sponsor name. Do not include text such as “sponsored by...,” or “funded by...”. If the work was funded by the author’s employer, list the employer’s name. In-kind sponsors should also be listed. If there was no sponsorship, simply list “None.”

JMCP SUBMISSION AND PUBLICATION RIGHTS

If this work is either a Student/Resident/Fellow non-reviewed abstract or an Encore Abstract, copyright clearance is not required. Such abstracts will not be published in JMCP due to the copyright ownership of the original presenting organization.

Accepted Professional Reviewed Abstracts (the “Abstract”) will be published in the JMCP supplement. As such, JMCP must be granted a license to publish the Abstract.

- As author of this Abstract, I represent that I am the owner of the Abstract, and in consideration of the publication thereof, I hereby grant and assign to the Academy of Managed Care Pharmacy and its affiliates (collectively, “AMCP”) a non-exclusive, royalty-free, perpetual license to publish, reproduce, and/or distribute any and all portions of the Abstract in any form, including in physical spaces and on AMCP digital platforms, for educational, promotional, and/or archival purposes. I authored this Abstract as a “work-made-for-hire,” and the Abstract is therefore owned by the organization that hired me to produce it. I attest that the owner of the Abstract grants and assigns to AMCP a non-exclusive, royalty-free, perpetual license to publish, reproduce, and/or distribute any and all portions of the Abstract in any form, including in physical spaces and on AMCP digital platforms, for educational, promotional, and/or archival purposes. I represent that I have the full authority to grant this license on behalf of the owner. I authored this Abstract in the course of my official duties as an employee of the United States or other government, and it is in the public domain and not subject to copyright ownership. As such, a license to publish, reproduce, and/or distribute the abstract is not required. This work is either a Student Pharmacist/Resident/Fellow/Graduate Student non-reviewed abstract, or an

Encore abstract, and a license to publish, reproduce, and/or distribute the abstract is not required.

- Additionally, if your submission includes an audio or video recording (a “Recording”), you agree to the following:
- I hereby grant AMCP permission to use my image, likeness, voice, and performance as captured in the Recording.
- I hereby grant AMCP the right to publish, stream, display, and archive the Recording for educational, promotional, and/or archival purposes.
- I confirm that I have the right to grant this permission, and that anyone else identifiable in the Recording has given me similar permission.
- I understand that if my Abstract or the Recording is included on any AMCP digital platform, it will be made available view-only and not available for download. While AMCP will take reasonable steps to restrict any unauthorized use, I acknowledge that digital content can still be copied or misused. As such, I agree that AMCP shall not be responsible for any unauthorized use, reproduction, or distribution of the Abstract or Recording by third parties.

Agreement on Use of Artificial Intelligence

The submitter must acknowledge and follow the guidelines provided by AMCP regarding the use of artificial intelligence in developing content. This includes disclosing writing assistance in the references, acknowledgments, or other contributions and will include a clear description of the content (text, images, etc.) created, the name of the model or tool, version and extension numbers, and manufacturer. The submitter will ensure that all the content, including any produced by generative AI, is accurate, not plagiarized, and appropriately cited.

REVIEW PROCESS

Each Professional Reviewed abstract is peer-reviewed and scored using a 1-5 scale with the following 5 criteria (15 rating scores per abstract), which are used by JMCP to evaluate manuscripts for publication: (1) Relevance (2) Originality (3) Quality (4) Bias (5) Clarity. Peer-reviewers submit an accept/reject recommendation, which is reviewed by a JMCP editor who makes the accept/reject decision. These decisions are reviewed and finalized by the JMCP editor-in-chief. Eighty to 85% of submitted abstracts are typically accepted.
